WORK EXPERIENCE

Web Development Intern | Code Alpha | [LINK](#)

April 25 - July 25

- As a Web Development Intern at CodeAlpha, I actively contributed to the design and development of real-world web applications during a 3-month virtual internship. This opportunity helped me strengthen both my technical and collaborative skills.

Web Development Intern | SOFTPRO INDIA | [LINK](#)

June 30 - Aug 30

- Enhanced user interfaces and developed responsive websites
- Created a interactive FoodCart websites using HTML, CSS, and JavaScript
- Developed an API-based Exam Management System that handles exam, student, and question data dynamically with a clean and responsive interface.

PROJECTS

Todo App | [LINK](#)

November 2024

- Functionality for Task Management:** Built a web app where users can add, complete, and delete tasks.
- Local Storage:** Integrated localStorage functionality to ensure that tasks persist even after the browser is refreshed or closed.
- Interactivity:** Added interactive features that include task completion and task deletion using JavaScript.

Myntra Clone | [LINK](#)

October 2024

- E-Commerce Website Clone:** Built a working clone of Myntra with product categories, search capability, and user navigation, utilizing HTML, CSS, and JavaScript.
- Responsive UI:** Developed a mobile-friendly, responsive layout to provide an optimal shopping experience on various devices.
- Interactive Features:** Incorporated key e-commerce functionalities such as product filtering, shopping cart, and dynamic content rendering for a user-friendly experience.
